Stand Indicated.

President Roosevelt and Commissioner Garfield Furnish the "Bill of Particulars."

COURT'S TIME TO ACT NEXT

Washington, May 4.—The president today sent a message to congress submitting the report of Commissioner Garfield concerning the oil industry. The president says in his message: "The report shows the Standard Oil company has been benefited enormously by secret rates, many of these secret rates being unlawful. This benefit amounts at least to three quarters of a million dollars a year. The department of justice will take up the question by instituting prosecutions in at least certain of the cases. In addition to secret rates the Standard Oil company profits immensely by open rates, which are so arranged as to give it overwhelming advantage over independent competitors. It is not possible to put into figures the exact amount by which the Standard profits through gross favoritism shown it by railroads in connection with open rates."

Commissioner Garfield in his report says: "The general result of the investigation has been to disclose the existence of numerous flagrant discriminations by the railroads in behalf of the Standard Oil company and affiliated corporations. With comparatively few exceptions, mainly of other large concerns in California, the Standard company has been the sole beneficiary of such discriminations. In almost every section of the country that company has found some unfair advantages over competitors and some of these discriminations affect enormous areas. Not only has this resulted in great direct pecuniary advantage in transportation to the Standard company, but has far more importance of giving that company practically unassailable monopolistic control of the oil market through large sections of country. The discrimination in the transportation of oil embraces a variety of forms more or less important which may be classified under the following heads: Secret and semi-secret rates, discriminations in open rates, discriminations in classification and rules of shipment and discriminations in treatment of private tank cars."

Declares it Unjust.

New York, May 4.—E. F. Elliott, general counsel of the Standard Oil company, said this afternoon: "We must express unbounded surprise over Commissioner Garfield's report on which of course, the president's restrictions are based. Our unqualified declaration is that it is absolutely unfair and unjust towards us."

Didn't Break Prices.

New York, May 4.—The stock market took the president's message on oil cheerfully and followed the precedent of a rise in prices on what's considered bad news. Even the Standard Oil stock developed decided strength.

COL. W. W. BALDWIN DEAD.

Was Famous Character of Blue grass Region of Kentucky.

Frankfort, Ky., May 4.—The fatal illness of Col. W. W. Baldwin in Louisville, better known as "Turnpike King" Baldwin, removes one of Kentucky's best known and wealthiest citizens, and a famous character. Col. Baldwin made his fortune in raising of Kentucky turkeys, controlling Central Kentucky, or the blue grass region, and was a picturesque character as he made his trips over his pikes collecting his tolls from his toll houses, driving a span of blooded horses to a fine vehicle.

After the toll-gate raiders of 1896-7 tore away his gates and blasted his toll houses, he was one of the moving spirits in securing the passage of the anti-tollgate raiders' law, by which troops were placed at the gates and the cost fixed against the county. He purchased hundreds of acres of fine farm lands in the blue grass region, and acquired an estate worth more than half a million dollars.

The circulation of The Sun for the month of April was 4,018, a day average. Business instinct tells you that it is the paper that tells its circulation daily that merits your confidence.

A Minnesota Tornado.
Cannon Falls, Minn., May 4.—A tornado four miles northwest of this place yesterday afternoon blew down all the buildings on the farm of Ferdinand Isla except his house. Two large barns on a neighboring farm and the Isla school house were blown into kindling wood. The school had been dismissed only a few minutes. As far as heard from no lives were lost.

Presented to President.
Washington, May 4.—Viscount Aoki recently appointed first ambassador of Japan to the United States, was presented formally to the president yesterday afternoon.

GEN. GREELEY IS PESSIMISTIC

Reports Health, Weather and Order Good, However.

Reports That Over Two Hundred Thousand People Are Suffering in Frisco.

SITUATION AN OMINOUS ONE

Washington, May 4.—Somewhat pessimistic advices as to the condition of the destitute sufferers in San Francisco was received by the war department today from General Greeley. He says health, the weather and the order continue excellent but that the number of destitute being fed is enormous, aggregating 191,637 in San Francisco, while apparently conservative estimates place the destitute refugees in Oakland and Berkeley at forty thousand. How this terrible condition is to be met is a subject of most earnest consideration. A solution of the situation without enormous suffering appears almost impossible.

Red Cross Has Nearly \$2,000,000.

Washington, May 4.—The total amount of money raised by the American Red Cross for the relief of San Francisco is \$1,738,000. Of this sum \$400,000 has been sent in cash to San Francisco, \$34,000 was spent for blankets forwarded for the relief work and \$2,000 was used in buying provisions. The present balance is \$1,302,000, which is being held at the disposal of the San Francisco Red Cross and relief committee.

Frisco Expresses Thanks.

Washington, D. C., May 4.—Secretary Taft yesterday received a dispatch from Chairman Phelan of the Red Cross and Relief committee, San Francisco, in which Phelan said:

"The finance committee directs me to state it fully understands the situation with which you were confronted and your authority in the premises and we have only to renew our thanks for the prompt manner in which you met our needs without even waiting for the action of congress, and we plainly see no disbursement of funds can be made except through the regular governmental channels. The only advice we had previously received was that congress had voted large sums of money for San Francisco and the impression was abroad it would be disbursed by the local authorities. The army organization under General Greeley has given us inestimable aid and have co-operated in systematizing the work of relief. We are under great obligations to the army and desire to express our acknowledgments."

THE RUSSIAN CONGRESS.

Government Announces a Program for the First Session.

St. Petersburg, May 4.—The Russian government has drawn up the program for the first session of the duma or national assembly, which begins next Thursday. The main topic of discussion will be agrarian reforms, autonomy for Poland, and increased liberty for the Jews, one of the three first most important topics will include a bill granting farm-land grazing lands to the peasantry.

MINERS' STRIKE SEEMS CERTAIN

The Sentiment is Very Strong Among the Men.

Recognize They Are Left Only One of Three Things to Do Now

THEIR DECISION IS VERY NEAR

Scranton, Pa., May 4.—Without profit yesterday a session of the tri-district miners' convention except in so far as they revealed practically a unanimous sentiment for a strike. It is believed nothing short of a miracle can prevent a strike from being declared either today or Saturday. At the conclusion of the afternoon session President Mitchell made a statement in the course of which he used the word "strike" for the first time since the present negotiation began. Here is what he said to the newspaper men:

"There is not much to say at this time as was indicated while you were present at the opening of the afternoon session. The sentiment seems very strong against accepting the condition and restricted arbitration schedule proposed by the operators of renewing the award of the anthracite strike commission for three years. The strike feeling has been intensified by the unfortunate and unjustifiable action of the state constabulary at Mount Carmel, as well as their conduct in other parts of the coal regions since the suspension went into effect. Of course, it cannot be stated positively what the vote will be. That will not be known until Friday afternoon or Saturday."

Strike Sentiment Strong.

At the afternoon session Mitchell made a brief speech. He briefly reviewed the negotiations in so far as they have progressed and said the committee had perhaps gone even further than it would have gone in endeavoring to bring about a peaceful settlement of the existing difficulties. He told of the propositions made by both sides, and then said:

"We have offered to arbitrate the demands we have made upon them; or in other words we have offered to arbitrate the difference between us, either through a board of conciliation, with Judge Gray as chairman, or through the anthracite strike commission. We have made a reservation, however, that it must be a full commission, not part of it. That, gentlemen is the status of affairs at this time and I am sure I voice the sentiment of every member of the committee—members of which have worked in entire harmony during these months—when I say that we regret we have not been able to make a report that would be satisfactory to you—we regret we have not been able to make a tentative agreement that would secure for you better wages and better conditions of employment."

A motion to adjourn brought out a strong sentiment in favor of the immediate declaration of a strike. A motion to go into executive session was carried and after a brief secret meeting the convention adjourned.

Only One of Three Things to Do.

Scranton, Pa., May 4.—President Mitchell was in the chair when the anthracite convention opened today. Copies of the correspondence, which included all propositions made by miners to the operators and vice versa, were distributed among the delegates. Attached to the papers was a report from the scale committee which narrows the questions for the miners to determine down to these propositions: Return to work under the present conditions, accept a restricted method of arbitration or strike. No hope of concession by the operators is held out. The meeting today was absolutely secret.

Wants a Position As Teacher.

Miss Margaret T. Hall, of Danville, Ky., but now teacher of English and History in the High school of Tuscola, Ill., has applied for a position in the Paducah schools for next year. She is strongly recommended, as a capable teacher.

Two More Shocks Felt.

San Francisco, May 4.—Two more earthquake shocks of slight intensity but sufficient to awake sleepers occurred this morning. The recurrence of these shocks cause little alarm.

METHODIST CONFERENCE. Attendance Is Large and the Reports Show Church Growth.

Birmingham, Ala., May 4.—The fifteenth quadrennial meeting of the general conference of the Methodist Episcopal Church, South, began here yesterday morning at the First Methodist church with about 200 delegates and 300 visitors, church officers and others present. The roll call revealed the presence of nine active bishops. The conference was called to order by Bishop A. W. Wilson, of Baltimore, the senior bishop. The Tennessee, South Georgia, North Alabama, and the Texas conferences had practically complete delegations present at the opening session. Dr. J. J. Tigert, of Nashville, secretary of the general conference, at its two last preceding sessions, was unanimously re-elected secretary. The address of bishops was read to the conference by Bishop Charles B. Galloway, of Mississippi. It was quite lengthy, covering the entire operation of the Southern Methodist church both at home and abroad since the last quadrennial conference. It showed an increase of members of 109,427 for the past four years as against 38,485 for the preceding quadrennium and an increase of \$645,673 in mission board receipts over previous four year. It recommended many plans for enlarged usefulness and dealt exhaustively with the missionary question, and needs.

THE PARK BOARD STARTS TO WORK

Holds Meeting This Morning to Discuss Plans.

Will Prosecute Any One Found Destroying Shade Trees in the City Limits.

TO IMPROVE THE LANG PARK

The park commission held a meeting this morning, and appointed a committee to go before the council Monday night to ask that body to try to purchase a hundred feet of property from Mrs. Puryear for the extension of that street from Kentucky avenue to Broadway, instead of 60, as is now proposed.

The board has in view the proposition of, at some time, making Tenth street, from Broadway all the way to the city limits a 100 foot boulevard, with a park in the center, and the drives on the side, and for that reason wants the city, while it is making this purchase, to buy the 100 feet.

The proposition is one that will appeal to those who think Paducah should have a handsome boulevard, and the location could hardly be improved upon. Coming from the union station, all the traffic would be on Tenth street, and if it is improved as proposed, the bad districts abutting it eliminated, and the character of houses improved along the street, which would, as a matter of course, follow, it would give a boulevard that would attract attention, give a big portion of the city park grounds and serve the purpose of wiping out some undesirable districts.

The same committee will also ask the council to direct that the stone curbing and material the city has stored on the rear of the Carnegie library property, be removed, as the commission wants to take this plot of ground and improve it at once.

The commission has a number of propositions from people who wish to donate small triangular plots for "beauty spots," located in various parts of the city, and will consider all of them as soon as it can get to them. These plots contain probably a half acre of ground and are well located, and if accepted the commission would only have to have them nicely sodded and some flowers set out and these attended to by a keeper.

The commission has also decided to at once consider the improvement of Lang park, on Fountain avenue, and it will be given consideration at once.

The commission has also decided to prosecute anyone guilty of destroying any of the shade trees on the streets and thoroughfares of the city, and in particular will prosecute the telephone companies which have been such great offenders in this regard.

ARE OUT ON AN INSPECTION TRIP

Officials of I. C. Here Looking Over Road's Property.

Concluding Here the Inspectors Will Go Over the Division At Once.

STRIKE AMONG SECTION HANDS

The annual "improvement" inspection on the Louisville division of the I. C., is being made today. The Paducah freight house and local terminals were inspected this morning prior to the starting out of the special train. Conditions here were pronounced well high perfection.

The following officials are making the inspection: L. P. Fritch, assistant to the general manager; F. L. Downs, division agent; Supt. A. E. Egan, Roadmaster Thompson, Master Mechanic R. J. Turnbull, of the Louisville division; John Donovan, local agent; A. D. Brooks, superintendent of fire extinguishers; Traveling Engineer B. J. Feecey and other officials of the division.

Mr. Fritch arrived at 7:45 from Cairo in private car No. 4 and was taken with the party to Eleventh and Broadway and then over the local terminals. At 9 o'clock a special train was made up and started out for the division.

The inspection will be concluded this afternoon and Mr. Fritch will leave Paducah at 1 o'clock tomorrow morning for Chicago via Brookport. He will go in a special train.

The purpose of the inspection is to note necessary improvements, and some immediate results are looked for.

Section Men On a Strike.

The I. C. is experiencing a great deal of trouble on the Louisville district of the road with section hands. The section hands are demanding more money and yesterday it is said all employed north of Central City laid down pick and shovel and refused to work unless the pay was increased.

The section hands, principally Italians, on the Nashville division, get \$1.25 a day for their work, and negroes are employed principally on the Louisville district. It is said they receive but \$1.10 a day and want the same as is paid the Italians, \$1.25 a day. The move has not reached Paducah yet, at least the section men here are still at work.

Gone Visiting.

Mr. J. P. McCarty, assistant foreman of the local I. C. wrecking crew, and wife, went to Princeton this morning to visit.

Water Contract.

Special Agent Dick Tolbert, of the local I. C., left at noon for Dawson Springs to make the annual "water contract." Every summer employees in Master Mechanic R. J. Turnbull's office drink Dawson Springs water. The water is sent here daily in jugs and is placed in a separate cooler in the master mechanic's office. Officer Tolbert will contract today with some resident of Dawson to make the daily shipments.

New Claim Agents.

M. C. Payne has been appointed claim agent on the Tennessee division of the I. C. between Fulton and Memphis exclusive of the Dyersburg branch and from Dyersburg to Memphis. Mr. Parks C. Archer is placed in charge of the latter branch and territory taken from Payne's territory.

Quits the "Chief Clerk" Office.

Mr. Claude C. Baker, chief clerk in the office of Master Car Builder T. M. Baughan, of the local I. C., has resigned, effective at once. His place will be filled this week, and Mr. Baker will leave the railroad service permanently, it is said.

Mr. Baker has held the position of chief clerk in this department for years. He started in the railroad business ten years ago and worked up to the position he now holds. He will go with the Wallerstein Clothing company in the clerical corps, and on account of his popularity with the railroad men will likely draw a great deal of the railroad trade to that establishment.

Mr. Frank Theobald, formerly clerk to Foreman Geo. Bondurant, but now a clerk under Master Mechanic R. J. Turnbull, is mentioned as a successor to Mr. Baker. It is pro-

bable that Stonewall Pollock, clerk in Foreman Bondurant's office, will succeed Mr. Theobald, he being in line for promotion.

CABINET ALL BUREAUCRATS.

Men Who Will Serve New Russian Premier.

St. Petersburg, May 4.—The immediate organization of the new Russian cabinet is now anticipated. All the ministers are understood to have placed their resignations in the emperor's hands. Besides M. Goremykin, as premier, the slate is said to include M. Stolypin, the governor of Saratoff, for minister of the interior; K. Kovtsov for minister of finance; Prince Galitzin, Professor of Physics at the Academy of Sciences, Minister of Ways and Communications; M. Von Kaufman, a member of the Council of the Empire, Minister of Education; Prince Sherinsky Shakhmatoff, Procurator of the Holy Synod, and M. St. Cheglovoff, Minister of Justice—all bureaucrats, but rather colorless.

RATE BILL GENERAL DEBATE IS OVER

It Closed With Yesterday's Discussion of Act.

Tillman Presents Some Amendments to the Bill As Proposed by the Commerce Commission.

TARIFF DISCUSSED IN HOUSE

Washington, May 4.—Yesterday was the last day of general debate in the senate on the railroad rate bill and it was fully occupied. Following a brief speech by Nelson, Tillman spoke at length in an effort to show by criticism of individual judges that the power of granting temporary injunctions by inferior United States courts could be taken from them in the interstate commerce commission cases, and he was followed by Bacon, Bailey, Teller and Foraker in speeches of some length. Tillman's speech consisted mainly of quotations reflecting upon the conduct of federal judges in different parts of the country. While he was speaking he engaged in a controversy with Spooner, in which the Wisconsin senator characterized his adversary's references to him as "indecent" and during which Tillman ordered Spooner to take his seat. Bacon criticized the course of Tillman as calculated to produce a false impression on the country and was in turn censured by Bailey, who held that while the office of judge is entitled to the greatest respect, there should be no reverence for judges as men.

Tillman Presents Amendments.

Senator Tillman has proposed certain amendments to section 6 of the railroad rate bill prepared at his request by the interstate commerce commission to correct certain alleged inconsistencies in the pending measure concerning the publication of all terminal charges, storage charges and all special privileges or facilities granted or allowed. The amounts will have the effect of placing the filing and publication of all schedules on the same footing and make such schedules include all rates, privileges or facilities.

The Tariff Was Up in the House.

During the day the army appropriation bill, carrying about \$74,000,000, was passed and the naval appropriation bill, carrying nearly \$100,000,000 for a naval establishment, was taken up by the house. Beyond explanation of the bill by Foss (Illinois) chairman of committee on naval affairs and running fire on question which his presentation called forth, there was little interest shown in the earlier part of debate that ensued.

Toward the close of the day, however a lively colloquy between Bates, Pennsylvania; Williams, Mississippi; Clark, Missouri, and Payne, New York, over certain statements made by Bates in relation to price of steel rails.

The discussion took on a wide tariff range as forerunner of still further discussion as session nears its close. The speakers, except Foss, Meyer, Louisiana, and Knowland, California, contented themselves under latitude furnished by "general debate," with discussing subjects in which they have particular and personal interest. It is expected general debate will run today and vote on the bill taken by sections on Saturday.

CHINA ASSERTS HER RIGHTS

Objects to Foreign Land Holdings in Manchuria.

Policy Not Agreeable to All Powers and Particularly to the United States.

THE "OPEN DOOR" IS CLOSED

Washington, May 4.—China is asserting her dignity and rights as to the Province of Manchuria, wrested from Russian control as a result of the war, in a manner that is not entirely agreeable to all of the powers. And the first manifestation of this falls on the United States.

Partly to sustain the Chinese claim to sovereignty over the province and also to secure the open door as against either of the parties to the great combat, the state department early in the quarrel took steps to establish consulates at Antung and Tatungkow and Mukden and Dalny. Not Expected.

During the progress of the war and while the country was in military occupancy, it was not possible to actually open offices at these places. But as soon as Japan and Russia were willing to withdraw their troops it was, of course, assumed that there would be no further difficulty experienced in installing the American consuls.

Now, however, it appears that China is interposing obstacles, supposed at first to be grounded entirely upon a desire to merely assert herself and gratify her vanity, but at last found to have a much more substantial basis.

Makes Issue.

In fact, the Chinese government, it is understood, is now determined to make a stand against any extension of foreign land holdings in China, and finds the opportunity to make the issue in connection with the establishment of foreign consulates in Manchuria.

In Shanghai, Tien Tsin, Canton and elsewhere in Mongolia there are what are known as foreign settlements, wherein the consulates are located and the ground titles in many cases rest in the hands of foreign governments or in citizens of foreign countries. These settlements have always been obnoxious to the Chinese, and they have determined to prevent the extension of the legation holdings.

One Condition.

Hence, in the case of Manchurian consulates, while the Chinese government is willing that these great trade agencies should be established, they wish to permit it only on condition that the necessary land for the foreign occupants of the towns shall remain in the ownership of the Chinese government, and that foreigners be permitted to live thereon only under 30-year leases.

The Chinese government has already inaugurated this new policy of foreign exclusion in the important City of Crican Fu by prohibiting the connection of foreigners with the electric lighting and trolley systems or in connection with any of the public utilities, and the same principle is being applied to the construction of railroads.

TAKES MUCILAGE FOR POISON.

Forgiving Wife Losens Up Husband's Jaw and Tongue.

Middlebourne, W. Va., May 4.—After a wordy quarrel with his wife, Richard Jones, a farmer at Hog Run, concluded to end his life, and, going into a cupboard where some poison was kept, seized a bottle and took a generous drink of the contents before their consistency caused him to open his eyes and look at the bottle.

He saw the label and hurled the bottle from him. It was good, old-fashioned gum arabic mucilage which filled his mouth and clutched at his throat and nearly suffocated him.

Mrs. Jones heard the commotion and ran into the room. Jones tried to berate her. But his tongue went to the roof of his mouth and cleaved there. He shut his teeth with a vicious snap and found his jaws stuck fast. Mrs. Jones was nearly convulsed with laughter. When she could control herself she went about to unstick her husband.

Jones' anger changed to gratitude as his wife worked for him. He loosened up his jaw and his tongue unlimbered and uttered a somewhat

Your Opportunity to Get a GAS STOVE FREE

At 312 Broadway

BEGINNING Tuesday, May 1st., and continuing for one week, we will give cooking demonstrations on the gas stove. An expert chef will be in attendance. Wives bring your husbands. All will receive a ticket good for one chance in the drawing contests. There will be good things to eat and good things to drink.

Drug Store

Theatrical Notes

The sale of seats for the Damrosch orchestra went on this morning and the indications are that it will be greeted by a good sized audience. The coming of this famous organization to Paducah is one of the musical events in the city's musical history, and it is to be hoped that it will be duly appreciated.

Damrosch has the best organization this year he has ever had, and has brought over four very famous artists from Europe to supplement the good work of his regular men. Miss Zudie Harris, of Louisville, who was here with Bispham, will be the piano soloist. Miss Harris is one of the best artists in the country and has made quite a reputation as a performer and composer.

Viola Allen will present Clyde Fitch's play, "The Toast of the Town," at The Kentucky Tuesday night. The generally expressed opinion in the cities where Miss Allen has appeared is that Mr. Fitch has provided Miss Allen with the best-made play that he has written. Mr. Fitch made the play to her measure and that he has succeeded so well proves that he took into full account Miss Allen's splendid abilities as an actress. The supporting company is one of the best that has supported Miss Allen since becoming a star and includes Isabel Irving, Mrs. Fanny Addison Pitt, Harrison Hunter, Hassard Short, Alice Wilson, Norman Tharp and C. Leslie Allen.

Famous Strike Breakers.

The most famous strike breakers in the land are Dr. King's New Life Pills. When liver and bowels go on strike, they quickly settle the trouble, and the purifying work goes right on. Best cure for constipation, headache and dizziness. 25c at McPherson's drug store.

GRIP-IT: the cold-cure that does the work in 8 hours, and will not make you sick. Try it.

The Local Contest.

The Indians took the first scalp of the season at Wallace park yesterday afternoon in the presence of 1,000 fans, many ladies included, and the game was exciting throughout. It was nip and tuck between the two teams from start to finish, and the Indians, while showing a great deal better head work and confidence, did not have the game "cinched" by any means until the last man went out in the ninth inning.

The Mattoon bunch is a strong team. This fact cannot be denied. The team, as a team, is strong, but the Indians compared a little stronger. It was head work, and good head work at that, which pulled the Indians through the game victors. But the Mattoon team would have been whitewashed had it not been for one little "bobbie" made in the seventh inning. Nippert let a ball go by him and in throwing to third to catch a runner, sent the ball wild. This was partly due to the umpire, however, who ran between and interfered with the play.

No fault with the "ump," however. He seemed to be "there," and it is "not to kick."

The Indians were first to tally, making their runs in the fourth inning.

How It Was Done.

Haas started the fire works with a single to left field. Wetzel drew a snack in the slats and both runners gained a sack on Perry's beautiful "give away" grass cutter. The bunt was beautiful and the Mattoon Hyphens were "up in the air" for a time. Miller hit one hard to left field and Walls caught it. Wetzel ran off second base and drew the outfield-thrown to that sack. Haas by this time was well in on the goal and went over the plate while the second baseman was fumbling the throw. This started the Hyphens and Nippert, after making a few lunges at the sphere, "stalling" with McCarthy, finally got a passage to first. South hit an infield pop and Ensign muffed it in his haste. Wetzel and Nippert tallied and Taylor's strikeout retired the side.

The visitors tallied one in the seventh inning. Ensign and Barryhill had been retired and Schissell hit a line drive to right field. Miller ran in to trap it but let the ball get through him. The runner gained second base. McCarthy followed with a single. Vance took his position at bat. Nippert let one get through and in fumbling it gave

Malaria Makes Pale Blood.

Schissell a chance to go to third. Nippert regained the ball and sent it at third. Umpire Devine ran in and crossed Wetzel, the ball going wild. Schissell scored, but the Indians fought them for it. The ball was returned to home place a fraction of a second after Schissell slid in.

There were other times during the game when it looked dark for the Indians, but the head work and solid team playing kept the visitors on the bases.

Today is Ladies' Day and a large crowd will doubtless be out.

McClain is at his old trick again of placing hits when they are needed most.

Eddie Gilligan did two star one-handed stunts yesterday. Gilligan is by far the fastest and surest second sacker in the Kitty league.

The Indians' hits were all solid ones yesterday, while the visitors' were luck bingles, being secured by luck pure and simple.

McCarthy not only pitched a remarkable game, but batted some too. He batted out 1,000, four times up and four singles, one a double.

Diehl, center fielder for the Mattoon bunch, will bear watching when he is on the sacks. He tried to steal home yesterday. He got caught, of course.

Ben Nippert shows up fine. His wing is good and his head work perfect. Nippert made one fumble, due to a bad throw from South, yesterday. In trying to throw the runner out at third the umpire interfered with the play, not intentionally. This is the reason it was not a shut out.

Ben Boyd, manager of the crack colored ball team, saved Paducah from the chagrin of being "caught napping" yesterday. Diehl was on third and Bert Haas held the ball on first base. Diehl, while Bert was talking with a player, started for home. The team seemed asleep for the moment, but Boyd's high pitched voice was suddenly heard. "Throw it home, throw it home," Boyd yelled in frenzy, and Haas sent the ball to Nippert. Diehl was tagged, but not a second too soon.

"Pap" Farnbaker leads out in the Cairo Bulletin this morning as follows:

"Although out hit the Tom Tom Beaters managed to beat Bob Berryhill's Birdies through superior base running and general inside work."

Pfecher McCarthy got four of the nine hits and all were scattered. It is not always the brawn that wins out, and if "Pap" will peruse the summaries of the big leagues he will find where hits are often scarce. Is the fact that the Indians did not get half a hundred hits any indication that the team is not superior?

Smoke up, your pipe's getting cold.

Cairo's Close Call.

Batteries—Perdue and Matteson for Vincennes, Warner and Quisser for Danville.

Writes Like a Knowing One.
A Mattoon sporting writer on the Star evidently knows what he is talking about, judging from the following dope he prints:

"The team that beats Paducah out will win the pennant, although Vincennes, last year's champs, is a formidable aggregation. If Berryhill can come home with two victories in the six games on the trip, he will do well and prove that his team is as good as any in the league. It is always a hardship to play away from home

and the close plays go against the visitors. The Hyphens in a month from now will be going a faster clip than now. All that is needed is to let them round to for the long strain through the summer when endurance more than speed tells.

MANY HORSES ARE ILL.

Influenza in Serious Form Is Declared As Prevalent.

Influenza in a very severe form is attacking horses in Paducah generally, and the situation is becoming very serious.

Yesterday a horse belonging to Mr. Charlie Clark, the livery man, died from the disease, and there are more than 100 cases in town reported by the veterinary surgeons. The form is severe and runs into pneumonia, it is said. Dr. C. G. Warner stated this morning that he had over 75 cases and that the disease seemed to be contagious and was fast spreading.

It starts in mildly but if the horse is neglected a day or two rapidly grows worse. Only one death where the influenza developed into pneumonia, has been reported so far.

Mrs. E. A. Johnson's Will Probed.
The will of the late Mrs. Elizabeth A. Johnson was filed for probate this morning in county court. The will is dated July 15th, 1903, and was witnessed by Dr. J. T. Reddick and Abe Anspacher. She leaves all her belongings, personal, real and mixed to her daughter, Mrs. Chloe Wilson.

Lagering

Lagering or ageing (storing for maturity) has much to do with the quality and healthfulness of beer. With our

Storing Capacity of

600,000 Barrels

exceeding that of any two other breweries in the World, we are enabled to lager our beer from four to five months before being marketed. This lagering brings out, to the utmost, that exquisite taste and fine flavor characteristic only of Anheuser-Busch Beer.

BOYS IN PRONAGE

RECENT ARRIVAL OF GREEK LADS HELD AT ELLIS ISLAND.

Will Likely Be Deported Under the Alien Contract Labor Law Provisions.

Washington, May 4.—The commissioner general of immigration has before him an interesting case of a shipload of boys from Greece who are held up at Ellis Island pending an inquiry as to whether they are entitled to admission to the United States. The case is typical of dozens of others that the department of commerce and labor has had during the past year or so, the history of all of which suggests that the youngsters are sent here and held under the peonage system.

Suspect Peonage System.

Inquiries made by agents of the department indicate that the boys were brought to the United States by a society or organization with headquarters at Sparta, and that each boy is slated to enter some line of industry as soon as he is released from Ellis Island. According to the reports of the inspectors, some are destined to enter bootblacking "parlors," others small stores, and some will be assigned to labor camps in various parts of the country.

Commissioner General Sargent has recommended that all the Greek boys be deported on the ground that they were brought here in violation of the alien contract labor law. He believes that the government can establish the fact that the lads were brought here in pursuance of an agreement, and that they are to be railroaded into positions engaged for them beforehand. Mr. Sargent also believes that the lads are to be held as peons, and that their wages are to be collected by the agents of the society that sent them here.

Are Intelligent Lads.

Many thousands of Greeks have been brought to the United States in this manner during the past two or three years. Most of them have become bootblacks and their shoe shining establishments are to be found in almost every city of any size in the country. They have completely driven out of business the old-time bootblack. The lads are for the most part bright, industrious and rather intelligent, and are the kind of material from which good citizens are developed.

Commissioner General Sargent believes, however, that the national policy is to restrict immigration, and consequently he recommends, that these boys be deported every time the facts warrant such action.

TAKES HIS FIFTH BRIDE AT AGE OF EIGHTY-FIVE

Venerable Missourian Then Walks Nearly Two Miles to His Home.

Chillicothe, Mo., May 4.—Robert Stephens, 85 years old, of "Poosy," has just married Mrs. Henrietta Brennum, of Trenton. This is his fifth matrimonial venture.

Mr. Stephens has been a resident of Livingston county for 50 years. He was born and reared in Jackson township in this county.

He has been prominent in Republican politics and at one time was candidate for the Republican nomination for representative.

After the wedding the couple started for home and he sent word to his many friends to meet him and his bride at the depot.

When the train slowed up at Hickory station to let the bridal couple off there were 100 enthusiastic friends of "Uncle Bob" there to give the bride a proper welcome and to congratulate the bridegroom.

After receiving congratulations from their friends Mr. and Mrs. Stephens started on their journey homeward, one and one-half miles from the station, afoot.

Mr. Stephens stepped off with the bride with a degree of activity which suggested that his years had not sapped his vigor.

THIEVES MAKE A HAUL.

Rob a Hen House and Smoke House Near Union Depot.

Chicken thieves got in their work at the residence of Switchman Hugh George, of the I. C., who resides on Caldwell avenue near the Union depot, last night. Mr. George awoke this morning to find the doors of his hen and smoke house broken in. He missed several chickens and a lot of meat, butter and eggs—he does not know how much, but very little of anything was left.

The doors were battered in with timbers, but the thieves made so little noise that the family was not awakened.

No clue was left.

GRIP-IT: the cold-cure that does the work in 3 hours, and will not make you sick. Try it.

Do You Want to Know What You Swallow?

There is a growing sentiment in this country in favor of MEDICINES OF KNOWN COMPOSITION. It is but natural that one should have some interest in the composition of that which he or she is expected to swallow, whether it be food, drink or medicine.

Recognizing this growing disposition on the part of the public, and satisfied that the fullest publicity can only add to the well-earned reputation of his medicines, Dr. E. V. Pierce, of Buffalo, N. Y., has "taken time by the forelock," as it were, and is publishing broadcast a list of all the ingredients entering into his leading medicines, the "Golden Medical Discovery," the popular liver invigorator, stomach tonic, blood purifier and heart regulator; also of his "Favorite Prescription" for weak, over-worked, broken-down, nervous and invalid women.

This bold and outspoken movement on the part of Dr. Pierce, has, by showing exactly what his well-known medicines are composed of, completely disarmed all harping critics who have heretofore unjustly attacked them. A little pamphlet of the several ingredients which enter into Dr. Pierce's medicines. A copy of this little book is mailed free to any one desiring to learn more concerning the valuable, native, medicine plants which enter into the composition of Dr. Pierce's medicines. Address Dr. Pierce as above.

Dr. Pierce's Pleasant Pellets are tiny, sugar-coated anti-bilious granules. They regulate and invigorate Stomach, Liver and Bowels. Do not forget the "pill habit," but cure catarrh. One or two each day for a laxative and regulator, three or four for an active cathartic. Once tried always in favor.

\$50,000 GIVEN AWAY. In copies of The People's Common Sense Medical Adviser, a book that sold to the extent of 500,000 copies a few years ago, at \$1.50 per copy.

Last year we gave away \$50,000 worth of these invaluable books. This year we shall give away \$50,000 worth of them. **How can you share in this benefit?** If so, send only 21 one-cent stamps to cover cost of mailing only for book in stiff paper covers, or 31 stamps for cloth-bound. Address Dr. E. V. Pierce, Buffalo, N. Y.

GOT IN BUT CAN'T GET OUT SO IT APPEARS.

Doctor Locked Up for Eight Years Seeks Freedom in the Courts.

Independence, Iowa, May 4.—After having voluntarily incarcerated himself in an insane asylum, where he remained for eight years, Edward Rynders, a native of Holland, a graduated physician and apparently an intelligent and cultivated man of affairs, is finding it much harder to get out of the asylum than he claims it was for him to get in. He has filed with the district court a petition asking for a writ of habeas corpus.

Dr. Rynders has been acting as his own attorney and he presented to the court a petition six feet long. The petition is said to be one of the longest and most remarkable ever filed in the courts of Buchanan county.

Dr. Rynders sets forth the fact that he is not crazy, never was crazy and never expects to be unless he becomes insane from being confined in an asylum with lunatics of all kinds. The petition shows that Rynders was born in the Netherlands, coming to this city when young, but never having been naturalized. Because of the fact that he is not a citizen he claims that he has no right to be in the hospital. Furthermore, he declares that he never was committed to the hospital, no board of commissioners in insanity ever having heard his case. He claims to have sought admittance voluntarily, his personal request being granted. But after he got in, the doctor says, they would not let him out. After remaining there eight years he came to the conclusion that he would make one last attempt to regain the liberty of which he was being restrained and filed his application for a writ.

The doctors at the asylum say that Rynders is a victim of hallucinations.

Herbine

Will overcome indigestion and dyspepsia; regulate the bowels and cure liver and kidney complaints.

It is the best blood enricher and invigorator in the world. It is purely vegetable, perfectly harmless, and should you be a sufferer from disease, you will use it if you are wise.

R. N. Andrews, editor and Mgr. Cocoa and Rockledge News, Cocoa, Fla., writes: I have used your Herbine in my family, and find it a most excellent medicine. Its effects upon myself have been a marked benefit.

that will charm and delight the judge of fine gems. Rings, Brooches, Ornamental Combs, Chains, Bracelets, etc.

WATCHES

for Ladies and Gentlemen, in gold, silver or gummel. Cigarette Cases, Match Boxes, Cigar Cutters, etc. All sorts of dainty pieces of silver for my "lady's" dressing table.

WARREN & WARREN.

TREET DEPARTMENTS

STEPS TO INCREASE ITS CAPACITY ARE TAKEN.

Board of Works to Submit Such Report to Council Next Week.

The board of public works met yesterday afternoon and outlined definite plans of improvement for the street cleaning department, and will present them to the municipal boards at the next meeting.

The boards requested plans submitted by which the street cleaning department might be enlarged. The board of works proposed to get one additional street sprinkler, six additional head of mules with harness, one dump wagon, two dump carts, and six more men.

The cost of this increase can not be known until the class of wagons is known and the mules selected. The board also decided to recommend the building of sheds and stables on North Sixth street beyond the Dogwood factory, for the use of the street department. This will give more room in the rear of the city hall and will not effect a crowded condition that now exists.

The street inspector was ordered to confer with property owners holding property abutting the Lincoln colored school yard and gain their consent, if possible, to dedicate sufficient ground to open an alley.

The street inspector was instructed to remedy a defect in drainage near the Baumer fill on Tennessee street. The creek bed does not afford the proper grade and will have to be dug down a few feet to make the necessary decline.

The street inspector was ordered to make other sanitary improvements among them defective drainage at Ninth and Clark and Ninth and Adams.

Exposure.

To cold draughts of air, to keen and cutting winds, sudden changes of the temperature, scanty clothing, undue exposure of the throat and neck after public speaking and singing, bring on coughs and colds.

Ballard's Horehound Syrup is the best cure. Mrs. A. Barr, Houston, Tex., writes, January 21, 1902: "One bottle of Ballard's Horehound Syrup cured me of a very bad cough. It is very pleasant to take."

Sold by Alvey & List.

Cool Underwear...

MEN differ widely on the question of underwear. To meet the requirements of all men we carry a most extensive stock. Balbriggans, Lisle, Silks, Mercerized Silks and Nainsook Underwear now on display, moderately priced. Union suits in great variety. It is time to change now, as the warm days are upon us and hotter ones will follow. Better come while the stocks are complete and find just what you want. Ill fitting underwear is very unsatisfactory. Our salesmen will see that you are properly "suited."

DECLARE BANKRUPT.

The Iroquois Theater Company Can Not Pay Damages.

Chicago, May 4.—Owing to the fact that the Iroquois Theater company has been declared a bankrupt in Jersey City, N. J., \$2,000,000 of damage suits, resulting from the Iroquois fire, will fail.

The involuntary bankruptcy proceedings were begun March 26 and the adjudication made April 11. A meeting of creditors will be held on May 11, when a trustee will be appointed. The secret became public when notice of the creditors' meeting reached Chicago.

The several damage suits now on the calendar of the United States court here will have to be pushed against the former officials of the company individually as the only hope of securing anything.

Almost all the merchandise creditors of the company have been paid out of money secured by the sale of the theater building to the Metropolitan Theater company.

The company confessed insolvency, alleging to have no assets, and liabilities aggregating \$2,038,279.50.

Some people think they have peace when they are only petrified.

W. L. Gregory & Sons

INCORPORATED

The great bargain givers of Louisville, Ky., have a great treat for people of Paducah and surrounding country. They have just bought the large stock of Clothing, Shoes and Gent's Furnishings of the Goodman Clothing Co., at 206 Broadway. Mr. Goodman's health was so that he had to dispose of his stock quick, and as he knew we were always ready to buy merchandise of this class on short notice, when we have the privilege of setting the price, so he came to see us. Now we must close this entire stock out in the next 30 days, and we are going to offer the people this entire \$15,000 stock of clothing and gent's furnishings at the average price of 33 cents on the dollar. We will give you a few of the prices:

Daily Thought.

"Comfort and independence abide

with those who can postpone their

desires."

WITTE'S RETIREMENT.

Count Witte has really been "let

out" by the czar. The fact is one to

be regretted by the world at large

and one which promises dire results

to Russia. The czar has truly lost his

head and the brains as well, for he

has been guilty of a foolish act and

let get away from him the counsel

of a statesman. The strong yet con-

servative ideas of the count were

clear to the world at large and they

held out to all the promise that Rus-

sia would be protected alike from

the bureaucrats and the socialistic

elements. But the czar feared the

ideas and the strength of the man

and the socialists were incapable of

appreciating them. So Witte was

ground between the upper and the

lower stone and fared the fate of

the prophet in his own country.

Witte should shake the dust of Rus-

sia from his feet or his fate may be

the banishment of Tolstoi or even the

disappearance of Father Gapon.

Speaking of the retirement of

Count Witte as the Russian premier

the Nashville Banner says:

"The czar has never liked Count

Witte, and was forced by the stress

of circumstances to make him prime

minister. Witte had opposed the war

power generally accorded legislative

bodies. The dismissal of Count

Witte is a plain indication that this

douma will be refused, and that will

afford opportunity for the radicals.

The probability of a revolution in

Russia has not passed."

CONSIDERED IMPROPER.

The senators from California dis-

approve of the proposition looking to

a bond issue in behalf of San Fran-

cisco. They seem to hold to the po-

sition that California has made no

such request, and until this has been

done congress should not act, though

they are apparently misled because

they were not consulted at all as to

the proposition. The matter has, in

spite of the opposition mentioned,

been referred under strong support

to a committee, and there it now

rests.

While the idea has met with much

approval because of the apparent

great need of San Francisco for re-

lief of a most substantial nature

there is also much opposition to the

plan as one improper for various

reasons and unconstitutional with-

out doubt. Along the line of op-

position to the idea the Washington

Post says:

"The duty of the government

ceases, we believe, when it has ex-

erted itself to the utmost in doing

what no other agency could do in

the face of an appalling emergency

The rebuilding of San Francisco is

not a part of its duty. * * * It is,

therefore, improbable that any

concerted movement will be made to-

ward inducing congress to authorize

or guarantee a bond issue. Such a

movement would be unfortunate, be-

cause it would be a reflection upon

the splendid courage, self-reliance

and resources of the city by the Gold-

en Gate. There may be tedious de-

lay in adjusting fire damages tend-

ing to hinder reconstruction plans

but no one doubts that San Fran-

cisco will rise greater than ever."

THE SITUATION IN FRANCE.

The present French republic has

existed since September 4, 1870

nearly thirty-six years, the longest

period that any one form of govern-

ment has endured in France since the

overthrow of Louis XVI in 1792.

The first tumultuous republic sur-

vived only twelve years, during which

it had three distinct forms, the Con-

vention, the Directorate and the Con-

sulate. The first empire, comprising

the most brilliant period in French

history, lasted ten years only. The

two reigns of the restored House of

Bourbon covered sixteen years. The

Orleanist dynasty lasted eighteen

years, the second republic three years

and the second empire eighteen

years.

It seems that the delayed strike

among the miners of the anthracite

coal districts of Pennsylvania is to

materialize after all. The miners

said that they have made their last

effort to secure a compromise of dif-

ferences with the mine operators

and that if a strike is what the bar-

ons want it is what they will get. In

fact the miners stand more than

willing to strike and the convention

in session in Scranton will so decide

today or tomorrow, if this has not

already been their action. The motion

to declare a strike was raised in the

Scranton convention last evening and

was only held up for further consid-

eration as a precautionary measure.

The strike will be a most unfortunate

occurrence, as such contentions al-

ways are, if it comes to pass.

The park commission, which will

have charge of all shade trees on the

public thoroughfares hereafter, has

announced that it will prosecute the

telephone companies for every case

of destruction to shade trees caused

by the construction of their over-

head work. There have been a num-

ber of complaints lately about the

ruthless manner in which the com-

panies have been cutting down shade

trees, and the commission is deter-

mined to put a stop to it.

China it would seem is about to

close the Manchurian "open door"

in the face of her best friend, Uncle

Sam. Republics as well as people

are being crushed by the power of

the United States.

Attorney E. W. Bagby, referee in bankruptcy, went to Murray this afternoon to hear more evidence in the cases of Will Harris & Co. and Robert Sasseen.

The little daughter of Mr. and Mrs. Robert De Loach is seriously ill at the family home on Jackson street.

LATEST WORK OF MARCONI.

Soon Have Wireless Across Atlantic—Can Control Messages.

London, May 4.—Signor Marconi has assured the shareholders of his British company that wireless communications between America and Great Britain will be thoroughly established for fully commercial purposes by next September. The station at Cape Breton, Nova Scotia, is already in daily unbroken touch with the station on this side at Poldhu, Cornwall, a distance of 3,000 miles, but the European station will henceforth be located in the County Galway, Ireland. Marconi-grams will be accepted at six pence (12 cents) a word, with reductions for press and government messages.

The Italian inventor's latest wireless discovery is an apparatus for directing and controlling the electric waves so that they may be aimed like a shot at a specific point. Hitherto the waves have radiated indiscriminately in various directions and could be intercepted at any number of stations equipped with the Marconi apparatus. This will hereafter be impossible and Marconi-grams can be directed to a single ship sailing the high seas or the particular land station desired.

SMILING UNDER THE KNIFE.

Minor, Without Anesthetic, Submits to Operation Lasting Hour.

Seranton, Pa., May 4.—Six pieces of coal and rock, some of them as large as marbles were taken from the arm of Dennis Gannon at the Moses Taylor hospital after being revealed by the X-ray machine. The operation required an hour and the patient refused to have an anesthetic administered. Instead he smiled grimly as the scalpel was wielded. Gannon was a miner at the Lackawanna company mine and last January was injured by an explosion of dynamite, which produced blindness and which literally cut his arm to pieces, with the result that it was entirely paralyzed. An operation restored his sight, but the arm has been useless.

The operation will restore it to activity and the owner, who is prominent in labor and political circles as an orator, went to his home shouting with delight and carrying as trophies the causes of all his woe, the pieces of rock and coal that had been driven into his flesh.

Brief Items of News.

Two Russians carrying a bomb near Paris, France were killed by explosion of the instrument.

Walter Scott was killed, his head being blown from his body, by the explosion of a boiler in a saw mill near Farmer, Ky. Robert Jones was seriously hurt also. The mill was completely wrecked.

The premature explosion of a blast placed by Calvin Johnson in some rock near Olive Hill, Ky., resulted in Johnson's death.

Havana is to quarantine against New Orleans through fear of yellow fever.

A. A. Sparks, formerly of Kentucky, but later of Indiana, is dead at Mt. Vernon where he was a leading newspaper man.

The Winner-Klein drug goods department store at Meridian, Miss., was burned Tuesday night. The loss will aggregate \$200,000.

Tom Nearing, a negro preacher seriously injured another negro preacher, Tom Watson, by hitting him in the head with a "cant" book. Watson was the innocent victim of a prank some friends played on Nearing and he thought Watson was the guilty one.

John G. Doyle, of Louisville, shot and killed himself Wednesday morning because despondent over business affairs. He committed the deed at his home in Crescent hill.

MAN AND WIFE BOTH CRAZED THE SAME DAY

While in Different Towns Each Be-
comes Suddenly Insane and
Are Restrained.

Cleveland, O., May 4.—George L. Wheeler and his wife, of Akron, both were stricken with insanity the same day. While Mrs. Wheeler was held at the county jail in this city awaiting the arrival of Sheriff Barker, of Summit county, her husband was adjudged insane at Akron and ordered committed to the state hospital. The peculiar coincidence became known when Sheriff Barker arrived in this city to take Mrs. Wheeler back to Akron.

Mrs. Wheeler came to Cleveland to visit her friend, Mrs. Charles Rose in the Bangor building. No indication of her mental condition was apparent until she suddenly left Mrs. Rose's home.

Wandering aimlessly about Newburg Mrs. Wheeler attracted the attention of Newburg policemen and when questioned as to her identity refused or was unable to tell who she was or where she was going. She was taken to the county jail and there raved hysterically for several hours before becoming pacified.

Throughout the day she sang gospel hymns in a low moaning voice. When anyone interrupted her she refused to speak. Her name was learned from a card in her possession and her relatives at Akron were notified. Sheriff Barker came to Cleveland and took the woman back to Akron with him.

Mr. Wheeler is 52 years old and a traveling man. He had been in New Orleans all winter. Overwork is the cause of his insanity, the physicians say. Experts say Mrs. Wheeler's mental derangement is hereditary. Both the Wheelers are highly respected in Akron and they have several children. Mr. Wheeler is not violent, but is considered cunningly dangerous.

A Year of Blood.

The year 1903 will long be remembered in the home of F. N. Tackett, of Alliance, Ky., as a year of blood; which flowed so copiously from Mr. Tackett's lungs that death seemed very near. He writes: "Severe bleeding from the lungs and a frightful cough had brought me at death's door, when I began taking Dr. King's New Discovery for Consumption, with the astonishing result that after taking four bottles I was completely restored and as time has proven permanently cured." Guaranteed for sore lungs, coughs and colds, at McPherson's Drug Store. Price 50c and \$1.00. Trial bottle free.

Arrested As Bank Robbers.

William Thornton and C. Parden, who reside near Creal Springs, are said to be under arrest at Charleston, Mo., on suspicion of having broken into the Creal Springs bank last week.

The bank was touched for over \$2,000 and the burglars escaped on a hand car. Thornton formerly lived at Creal but of late had made his home near Charleston. He had been visiting in Creal Springs and the officers claim to have worked out a strong case against the two. It is said that the greatest portion of the money has been recovered.

Made Happy for Life.

Great happiness came into the home of S. C. Blair, school superintendent, at St. Albans, W. Va., when his little daughter was restored from the dreadful complaint he names. He says: "My little daughter had St. Vitus' Dance, which yielded to no treatment but grew steadily worse until as a last resort we tried Electric Bitters; and I rejoice to say, three bottles effected a complete cure. Quick, sure cure for nervous complaints, general debility, female weaknesses, impoverished blood and malaria. Guaranteed by McPherson's drug store. Price 50c.

Charged With Road Obstruction.

Joe Trinkle, of the Husband road, has been warranted and arrested and will be tried tomorrow in county court for the alleged obstruction of a public road. It is alleged that he built a fence partly across the public road in the county.

The case of Ed. Alexander against the Paducah City railway was continued until the 16th day of the term. He sues for damages for the death of his child which was struck by a street car.

Had a Close Call.

"A dangerous surgical operation, involving the removal of a malignant ulcer, as large as my hand, from my daughter's hip, was prevented by the application of Bucklen's Arnica Salve," says A. C. Stickle, of Milotus, W. Va. "Persistent use of the Salve completely cured it." Cures cuts, burns and injuries. 25c at McPherson's drug store.

You cannot lead men to their possible good unless you have some faith in their present good.

The cold cure that does the work in 8 hours, and will not make you sick. Try it.

THE SPENDERS A TALE OF THE THIRD GENERATION

By HARRY LEON WILSON

Copyright, by Lothrop Publishing Company.

"Yes, Mistah Puhs'val!" said Grant, and added to himself: "Yo' suttin' do ca'y yo'self mighty han'some, Mistah Man!"

Going out of the hotel, he met Laund Oldaker, with whom he chatted a few moments, and then bade good-by. Oldaker, with a sensitive regard for the deencies, refrained from expressing the hearty sympathy he felt for a man who would henceforth be compelled to live out of the world.

Perceval walked out to Broadway, revolving his plan. He saw it was six o'clock. He could do nothing for at least an hour. When he noted this he became conscious of his hunger. He had eaten nothing since morning. He turned into a restaurant on Madison square and ordered dinner. When he had eaten, he sat with his coffee for a final smoke of deliberation. He went over once more the day's arguments for and against the novel enterprise. He had become insensible, however, to all the dissenting ones. As a last rally, he tried to picture the difficulties he might encounter. He faced all he could imagine.

"By God, I'll do it!" "Out, monsieur!" said the waiter, who had been standing dreamily near, startled into attention by the spoken words.

"That's all—give me the check." He drove first to the Milbrey house, on the chance that she might be at home. Jarvis answered his ring.

"Miss Milbrey is with Mrs. Van Geist, sir." Jarvis spoke regretfully. He had reasons of his own for believing that the severance of the Milbrey relationship with Mr. Bines had been nothing short of calamitous.

He rang Mrs. Van Geist's bell, five minutes later.

"The ladies haven't come back, sir. I don't know where they might be. Perhaps at the Valners', in Fifty-second street, sir."

He rang the Valners' bell.

"Mrs. Van Geist and Miss Milbrey? They left at least half an hour ago, sir."

"Go down the avenue slowly, driver!"

At Fortieth street he looked down to the middle of the block.

Mrs. Van Geist, alone, was just alighting from her coupe.

He signaled the driver.

"Go to the other address again, in Thirty-seventh street."

Jarvis opened the door.

"Yes, sir, you, sir—Miss Milbrey is in, sir. I'll see, sir."

He crossed the Rubicon of a doormat and stood in the unlighted hall. At the far end he saw light coming from a door that he knew opened into the library.

Jarvis came into the light. Behind him appeared Miss Milbrey in the doorway.

"Miss Milbrey says will you enter the library, Mr. Bines?"

SOME RUDE BEHAVIOR, OF WHICH ONLY A WESTERN MAN COULD BE GUILTY.

He walked quickly back. At the doorway she gave him her hand, which he took in silence.

"Why—Mr. Bines!—you wouldn't have surprised me last night. Tonight I pictured you on your way west."

Her gown was of dull blue dimity. She still wore her hat, an arch of straw over her face, with ripe red cherries nodding upon it as she moved. He closed the door behind him.

"Do come in. I've been having a solitary rummage among old things. It is my last night here. We're leaving for the country to-morrow, you know."

She stood by the table, the light from a shaded lamp making her color glow.

Now she noted that he had not spoken. She turned quickly to him as if to question.

He took a swift little step toward her, still without speaking. She stepped back with a sudden instinct of fright.

He took two quick steps forward and grasped one of her wrists. He spoke in cool, even tones, but the words came fast:

"I've come to marry you to-night; to take you away with me to that western country. You may not like the life. You may grieve to death for all I know—but you're going. I won't plead, I won't beg, but I am going to take you."

She had begun to pull away in alarm when he seized her wrist. His grasp did not bruise, it did not seem to be tight; but the hand that held it was immovable.

"Mr. Bines, you forget yourself. Really, this is—"

"Don't waste time. You can say all that needs to be said—I'll give you time for that before we start—but don't waste the time saying all those useless things. Don't waste time telling me I'm crazy. Perhaps I am. We can settle that later."

"Mr. Bines—how absurd! Oh! let me go! You're hurting my wrist! Oh!—don't—don't—don't! Oh!"

When he felt the slender wrist trying to wriggle from his grasp he had closed upon it more tightly, and thrusting his other arm quickly behind her, had drawn her closely to him. Her cries and pleadings were being smothered down on his breast. Her struggles met only the unbending, pitiless resistance of steel.

"Don't waste time, I tell you—can't you understand? Be sensible—talk if

you must—only talk sense." "Let me go at once—I demand it—quick—oh!"

"Take this hat off!"

He forced the wrist he had been holding down between them, so that she could not free the hand, and with his own hand thus freed, he drew out the two long hat pins and flung the

hat with its storm-tossed, cherries across the room. Still holding her tightly, he put the free hand on her brow and thrust her head back, so that she was forced to look up at him.

"Let me see you—I want to see your eyes—they're my eyes now."

Her head strained against his hand to be down again, and all her strength was exerted to be away. She found she could not move in any direction.

"Oh, you're hurting my neck. What shall I do? I can't scream—think what it would mean!—you're hurting my neck!"

"You are hurting your own neck—stop it!"

He kissed her face, softly, her cheeks, her eyes, her chin.

"I've loved you so—don't—what's the use? Be sensible. My arms have starved for you—so do you think they're going to loosen now? Avise Milbrey—Avise Milbrey—Avise Milbrey!"

His arms tightened about her as he said the name over and over.

"That's poetry—it's all the poetry there is in the world. It's a verse I say over in the night. You can't understand it yet—it's too deep for you. It means I must have you—and the next verse means that you must have me—a poor man—he a poor man's wife—and all the other verses—millions of them—mean that I'll never give you up—and I a lot more verses for you to write, when you understand—meaning that you'll never give me up—and there's one in the beginning means I'm going to carry you out and marry you to-night—now, do you understand?—right off—this very night!"

"Oh! Oh! this is so terrible! Oh, it's so awful!"

Her voice broke, and he felt her body quiver with sobs. Her face was pitifully convulsed, and tears welled in her eyes.

"Let me go—let me go!"

He released her head, but still held her closely to him. Her sobs had become uncontrollable.

"Here—" he reached for the little face-ached handkerchief that lay beside her long gloves and her purse, on the table.

She took it mechanically.

"Please—oh, please let me go—I beg you." She managed it with difficulty between the convulsions that were rending her.

He put his lips down upon the soft hair.

"I won't—do you understand that? Stop talking nonsense."

AN INSURANCE CONFERENCE.

Adjustment of San Francisco Losses—Liberal Policy to Be Pursued.

New York, May 4.—The Tribune says: Representatives of both foreign and American fire insurance companies were in the city yesterday discussing action to effect a compromise of adjustment of loss by fire in San Francisco. This discussion was largely upon the question as to the attitude the adjusters of companies should be instructed to take in regard to disputed questions.

The great companies express a strong purpose to be not only just but generous in cases of doubt, but they all evidently felt what was expressed by the president of a large American company who said yesterday:

"The adjusters of this company will not be allowed to waive the conditions of its policies nor the conditions and restrictions of its charter. We have no more right to pay a loss occasioned by earthquake than we have to pay a loss of life. We are not an earthquake insurance company nor a life insurance company."

Because of exemption from loss by earthquake damage, well-informed insurance men estimated yesterday that the companies would ultimately pay from 60 to 75 per cent. of the aggregate amount at risk.

COAL DUST AS POWDER.

The Prank Played On John Trent By Jack Probus.

Mr. John Trent, storekeeper for the local I. C., has an old horse pistol, a relic of an ancient war, and he decided to try it yesterday.

He asked Jack Probus, a prominent member of the rifle and pistol club, to bring him some powder, the pistol being a cap and ball weapon. Mr. Probus forgot it, but when he was reminded crushed some coal and sent the storekeeper a goodly supply of the dust in place of the powder.

The pistol was carefully loaded and a cap inserted for the test. Mr. Trent sent a negro into an empty box car to "try" the pistol. The negro disappeared and after standing several minutes with his hands to his ears, Mr. Trent went in to investigate. The cap exploded all right but the load remained intact. Another cap and still another was tried and still the weapon refused to explode.

Storekeeper Trent is still trying to figure out the cause of the defect.

Growing Aches and Pains.

Mrs. Josie Sumner, Bremont, Tex., writes, April 15, 1902: "I have used Ballard's Snow Liniment in my family for three years. I would not be without it in the house. I have used it on my little girl for growing pains and aches in her knees. It cured her right away. I have also used it for frost bitten feet, with good success. It is the best liniment I ever used." 25c, 50c and \$1.00.

Sold by Alvey & List.

PUBLIC SCHOOL NOTES.

High School Chemistry Class Went Sight Seeing Yesterday.

The chemistry class of the Paducah High school visited the Bauen pottery yesterday afternoon and went through the entire plant. The class is making inspections of all industries and getting an insight into the practicability of subjects studied. These excursions have proven beneficial and will be features next year this being due to the success of the present year.

The "Test" Date Is June 7th.

The school children are preparing for reviews and will be ready for the tests which begin June 7th. Through an error on the part of the teaching corps it was stated that the tests would begin on May 7th. The latter part of the date was all right but the month was given in wrong. The tests begin June 7th.

A Positive Necessity.

Having to lay upon my bed for 14 days from a severely bruised leg, I only found relief when I used a bottle of Ballard's Snow Liniment. I can cheerfully recommend it as the best medicine for bruises ever sent to the afflicted. It has now become a positive necessity upon myself.

D. R. Byrnes, Merchant, Doversville, Texas, 25c and 50c and \$1.00.

THE COATLESS MAN is much in evidence again, and mighty cool and comfortable he looks. He'll feel pretty fine, too, if his "clothes conscience" is satisfied—if he is so well dressed that he is unconscious of it. Now one of the several important things that Paragon Pants will do well is to satisfy your "clothes conscience." The perfect ease with which they hang, their faultless modeling and exclusive fabrics all combine to make them a credit to the most irreproachable good taste. Made with peg top, cuff bottoms and side buckles, draping just as well without a belt as with one—you're sure to like Paragon Pants. Will you come in and try a pair tomorrow?

The Price is Anywhere from \$5 to \$10

THIS little preliminary touch of warm weather is hurrying lots of fellows into their "summer weights." The nainsook short sleeves and knee length drawers, \$1.00 a suit, are about as comfortable as anything we know, but if it's something else you want, we have that, too. Here's the way the prices run:

Balbriggan, suit	\$1.00	White flannel, suit	\$2.00
French Bou Bon, suit	\$1.50	Mercerized, all colors, suit	\$2.00
Silk, up to, suit	\$10.00		
Athletic balbriggan, knee length drawers, suit	\$1.00	Scriven's elastic seam, latest improved.	

Agents for Dr. Deimel's Linen Mesh Underwear

IF you have not yet selected your summer shirts, you had best not lose much time in looking through our stock. It will be a revelation to you—a revelation of style, fair pricing and variety. You can't think of a standard brand which is not carried at Weille's—Manhattan, Earl & Wilson and all the other "superfines." The patterns are pretty, many confined to us. Come in while the line is unbroken. Your size we will always have. Plaited or plain bosom; cuff attached or detached.

Common Sense Talk With Mothers

WE have a few earnest words to say to the mothers of Paducah about an important matter—the youngsters' clothes. It's probably a pretty hard problem for you; we can appreciate that, but for us? Why, it's just as easy. You see, one mother, so to speak, designs the clothes for all our boys—and, for that matter, the boys of thousands of other stores. She started to work last fall to design your boy's clothes for this spring and she has been working hard ever since. Naturally she has turned out a good job, for this mother is not a real mother at all, but a large corps of men and women whose whole lives have been given up to boys' clothes making. And she buys cheap, too, this great mother of ours, for she is not buying for one boy, or two, but for millions. She is located in New York, the greatest clothing center in the world, and consequently her ideas of style are absolutely correct and authoritative. **NOW HERE'S THE POINT OF THE WHOLE STORY:** Right here in Paducah, at Weille's, we have the product of the most expert clothing brains, made with all the snap and style and finish you could put in them yourself, at a lower price than you would pay for the bare materials.

FRISCO'S BOND ISSUE

IS NOT FAVORED BY THE CALIFORNIA SENATORS.

Want Congress to Await Request for Action by California, They Say.

Washington, May 4.—That the California senators do not consider that there should at present be an effort to secure government aid in the general reconstruction of the city of San Francisco was made evident in the senate yesterday. The question came up on Mr. Newland's resolution, directing the finance committee of the senate and the ways and means committee of the house to consider the feasibility of the government guaranteeing bonds to aid in the rehabilitation of the stricken city.

The Nevada senator discussed the resolution at some length, contending for the regularity of his suggestion and enlarging upon the desirability of making the city a more attractive center of population than it had ever been. Both Mr. Flint and Mr. Perkins deprecated the introduction of the resolution as unwise at this time and both indicated their opinion that the California delegation should have been consulted before the presentation of the measure.

Pointed Words.

When Mr. Newland's resolution with reference to San Francisco came up Mr. Hopkins asked a number of questions intended to bring out the fact that Mr. Newland's proposition is not different from the suggestion a few years ago that congress should make loans on mortgages on growing crops, but Mr. Newland refused to be drawn into a discussion of that question. He contented himself with reciting the aid that had been given to the various national expositions and to the Galveston flood victims. "A country that can spend \$200,000,000 in freeing Cuba and \$300,000,000 in instructing the Filipinos in self-government can," he said, "afford to lend its credit to the extent of fifty or one hundred millions to help the greatest port on the Pacific coast in its hour of distress." He thought it could be done under the general welfare clause of the constitution.

"The country," he declared, "does not yet know how hard it has been hit by this disaster, for not only has San Francisco been injured but the

entire country is affected." Mr. Newland asked for immediate consideration of the resolution.

Not Consulted.

Speaking for himself Mr. Perkins expressed regret that the resolution had been presented without consulting the California senators. He was opposed to any congressional action in advance of an official request from California. He had no doubt that Mr. Newland had been actuated by generous impulses, but he felt that if he had consulted with the California senators he might have been dissuaded from presenting the resolution which he considered would have been most desirable.

Mr. Aldrich then moved the reference of the resolution to the committee on finance and that motion prevailed without opposition. He promised that the committee would take up the resolution promptly and report as its judgment might dictate.

LABOR NIGHT

AT THE CARNIVAL ATTRACTS A BIG HOST OF PEOPLE.

A Very Large Crowd Out to See the Carnival Last Night.

Last night was Labor's night at the carnival, and the biggest crowd of the week was out. A big parade was held at 7 o'clock the unions marching to the grounds in a body.

The attendance was very good, and the shows were well patronized. The union men were the guests of the Carnival Association, and showed their appreciation.

IMPROVEMENTS EXPECTED.

Quicker Time on the Car Lines Is Expected.

Manager Bleeker, of the street railway company, expects several minutes in the schedule time to be saved by opening the new switch on Broadway. This with other contemplated changes and improvements will result in much better service on all lines. New supplies are being received from time to time to make the system as efficient as possible.

Wallace park will be much more attractive this summer than it has ever been before, the lake is being enlarged, swings and seats will be installed and flower beds placed about the park. The summer theater is being renovated and will probably open on the 21st.

CIRCUIT COURT

JUDGMENT IN A CONTRACT AWARDED THE PLAINTIFF.

A New Trial Asked for in the Osborne Case.

In the circuit court Sudie Sullivan was given a judgment against T. E. Lydon this morning for \$622 for a breach of contract. The contention in the matter was over a contract which Lydon made with the plaintiff. She owned stock in the Driskill posthole and auger company and while it was in litigation with C. E. Gridley, the plaintiff contracted to sell it to Lydon if she recovered it. She did recover it and Lydon failed to carry out his part of the contract. The suit was brought to force the fulfillment of the contract.

A suit was filed this morning in circuit court by The Estey Co. against Mrs. K. E. Harvey for a \$200 note.

In the case of E. B. Osborne against T. J. Moore and Will Baker, detectives, a motion with reasons for a new trial was filed by the plaintiff.

In the appealed case of J. D. White, against W. T. Ledford a judgment for \$24.75 was filed for the plaintiff.

B. J. Billings was excused as a petit juror, and N. B. Tapscot substituted.

The case of M. V. Tucker against the county of McCracken, for damages for digging a ditch and failing to provide for a means of ingress and egress to his farm, was tried this morning but left open until afternoon for argument.

At press time the damage suit of G. W. Tanner against E. W. Benton colored, was on trial. The two had trouble ending in a fight and Tanner claims Benton assaulted him with a club. He asks \$2,000 damages.

Goes to Wickliffe.

Attorney D. G. Park, acting as special judge, and Attorney George Oliver, went to Wickliffe this morning to try the case of Bettie Shoemaker against T. M. Baker, suit over debt and the title of property.

Venerable Citizen Is Very Ill.

Mr. Ed Bradshaw, age 94 years, is in a very serious condition at the residence of his niece, Mrs. Reuben Rowland, of North Seventh street. He is probably the oldest living citizen and of late has been growing very feeble. His condition is such that little hope is held for him.

Shirt Bosoms Starched Right

Ever have your shirts returned from the laundry with the bosom starched only in spots and with starch daubed all around the neckband and sides of the bosom?

We have a machine which saves you from such annoyances.

No chance to daub starch all over the rest of the shirt with this machine.

Let us demonstrate its value to you.
